

Summer School Classes

11+

Our course offers excellent preparation for selective school exams. The course covers Maths, English and Verbal Reasoning in a fun, fast-paced environment.

Over the 5 weeks, students will cover the full syllabus, including tips and tricks to nail exams!

The Brain Gym

Keep your mind active over the summer with our fun educational classes for students in KS1 and KS2.

Classes include languages, literacy fun, numeracy fun, horrible histories and world traveller.

Maths & English

Maths & English are small group classes which are perfect to help students gain confidence and skills.

Classes are generally 35 minutes of Maths and 35 minutes of English, but this can be adjusted to meet your child's needs. Students can also choose to focus on **creative writing**.

Specialist Secondary Classes

GCSE: Classes are offered in **Maths, English** and **Science** in small groups. The classes cover **all exam boards** and focus on building self-confidence, skills and technique.

Pre-GCSE: These classes are specially designed to prepare students for their GCSE courses. These cover English, Maths and Science and will focus on problem-solving and techniques that students will rely on for their GCSEs.

Secondary Success: Students will study a range of topics in Maths, English and Science, in line with the National Curriculum. Classes focus on building a solid foundation for secondary school, and cover revision techniques.

Prep for Secondary

Get ready for secondary school in September! Classes cover English and Maths as well as techniques to ensure that students are confident going into Year 7.

Workshops

For Younger Students

We will be hosting **storytime** for KS1 students as well as **creative writing** and **mad science** workshops.

For Older Students

We will be running **university preparation** workshops, and global citizen workshops, debating current issues.

We accept Childcare Vouchers and Working Tax Credits
